

TESTING CENTRE

for your hydraulic hoses

TESTING IN GERMANY FOR THE WHOLE WORLD

LOCATED
IN GERMANY

Our headquarters in the south of Germany. Here our test stands are in operation for you 365 days a year.

ANY TIME
ACCESS

Unique: you decide which tasks you do yourself and where you want to be supported by our trained specialists. If you wish, we will even conduct the complete testing process. During the whole test duration you have free access at any time.

STRICTLY
CONFIDENTIAL

Testing is a matter of trust. All data will be kept as strictly confidential. Hereto we commit ourselves with a non-disclosure agreement. The test stands are located in separate rooms, entry only with authorisation.

COMPLETE
DOCUMENTATION

Upon request we take care of the documentation including a detailed test report and supplementary photos if needed.

24H
LIVE CAM

Highest transparency by the constant possibility of watching your ongoing test via Live Cam with access key, without having to be on site personally.

ALL COMMON
TESTING STANDARDS

Pressure impulse test and hydrostatic testing in accordance with the common Standards, including flexing and half-omega. Due to freely programmable pressure curves and axis movements, tests can be realized even beyond the Standards.
